## Uvod

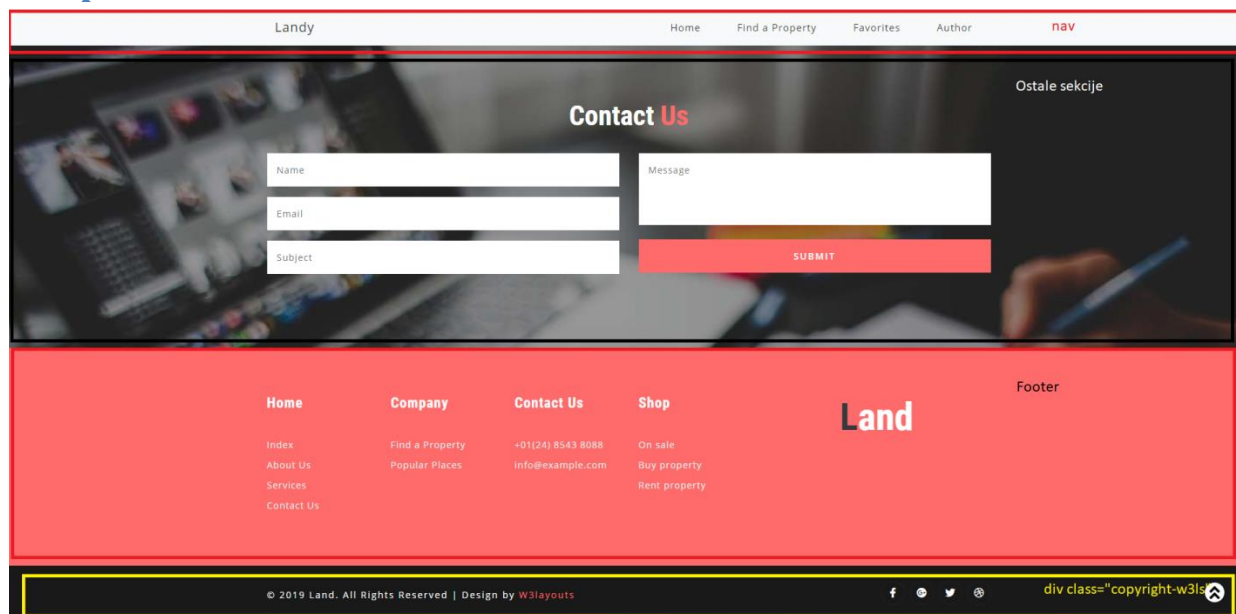

### Programski jezici

Korišćeni programski jezici za izradu sajta su: HTML 5, CSS 3 i Javascript. Korišćene biblioteke su: JQuery za Javascript i Bootstrap 4 za CSS.

### Opis funkcionalnosti

Na svakoj strani se dinamički ispusuje meni na vrhu strane i lista društvenih mreža na dnu strane. Na početnoj strani se dinamički ispisuje lista servisa, lista mesta i proverava kontakt forma. Takođe se pomoću localStorage-a čuva izbor filtera na početku strane. Na stranici property.html nalaze se funkcionalnosti filtriranja, sortiranja, pretrage nekretnina, dodavanje u omiljeno kao i mogućnost upisa podataka u kontakt formu. Na stranici favorites.html se nalaze svi proizvodi koji su dodati u omiljene.

### Template

## Organizacija

### Organizaciona šema

Sve stranice sajta su dostupne sa svake stranice sajta. Ne postoje stranice kojima nije moguće pristupiti sa neke od stranica sajta.

### Mapa sajta

## Slike sajta i opis funkcionalnosti

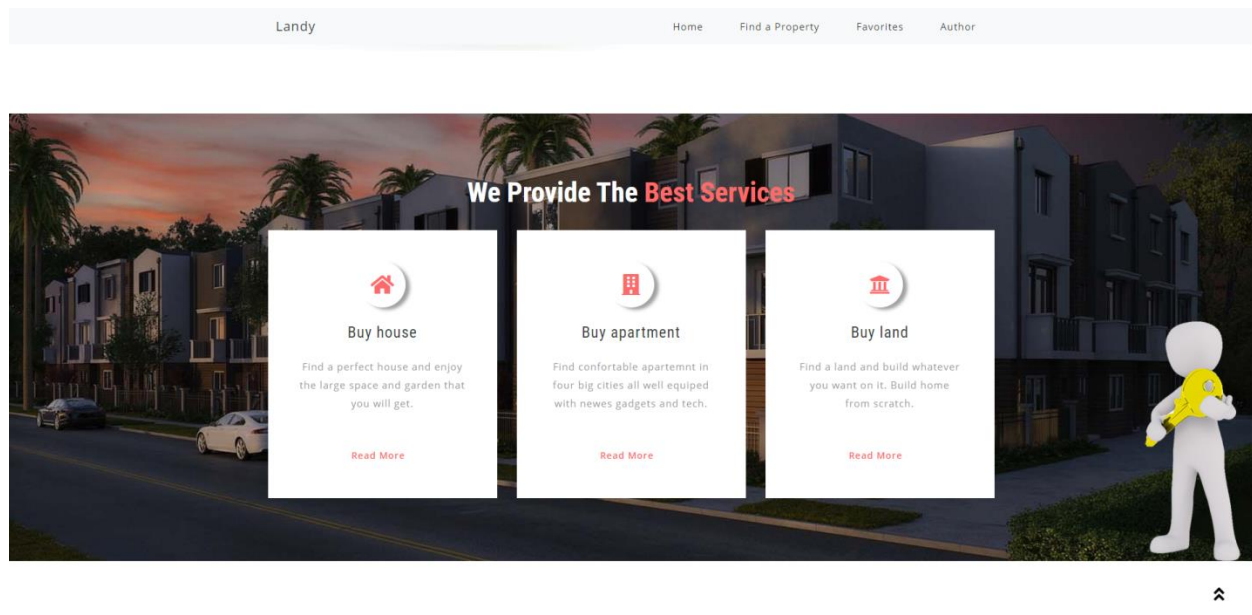

Index.html

*#home*

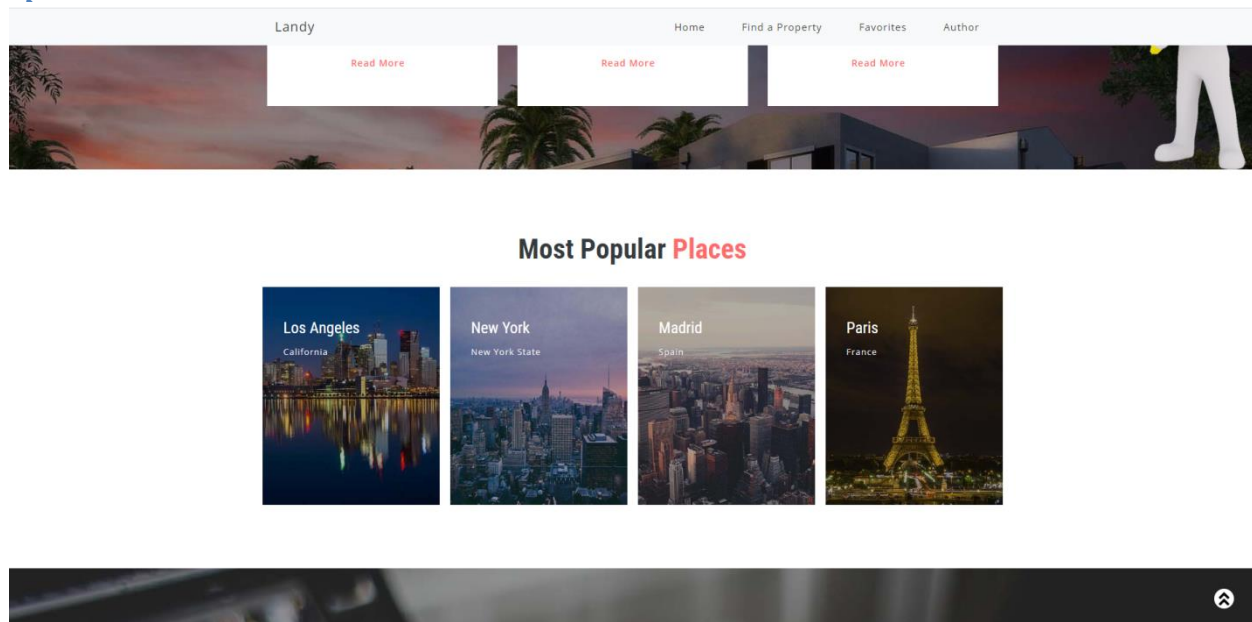

Na početku moguće je izabrati pod kojim kategorijama će se pretraživati nekretnine. Postoje četiri drop down menija i kada se izabere i pritisne “Find Here” odlazi se na novu stranicu property.html i tamo prikazuju odgovarajući proizvodi. Izabrani podaci se čuvaju u localStorage-u. Ako se ne izabere ništa sve nekretnine će se prikazati.

## #Services

Ovde je dinamički ispisana svaka od tri kartice. Podaci za ispisivanje su dohvaćeni iz JSON fajla pod nazivom services.json. Kada se klikne na neku od ove tri kartice prvo se briše localStorage ako je ostao od gornjeg dela(#home) , a onda se čuva određeni podatak u localStorage-u i odlazi na property.html stranicu. Na property.html stranici se prikazuju proizvodi u zavisnosti šta je korisnik prethodno kliknuo.

## #places

Ovaj div radi potpuno istu stvar kao i prethodni sem što umesto da filtrira po tipu nekretnine on će da filtrira po mestu na kom se nalazi nekretnina.

## #contact

The screenshot displays a web application interface. At the top, there is a navigation bar with links: 'Landy', 'Home', 'Find a Property', 'Favorites', and 'Author'. Below the navigation bar, there are four small square images showing different cityscapes. The main content area features a 'Contact Us' form. The form has three input fields on the left: 'Name', 'Email', and 'Subject'. To the right of these is a larger 'Message' input field. A red 'SUBMIT' button is positioned below the 'Message' field. The background of the form is a blurred image of a hand holding a pen over a document. At the bottom, there is a red footer bar. It contains a navigation menu with links: 'Home', 'Company', 'Contact Us', and 'Shop'. Below these links are additional links: 'Index', 'Find a Property', '+01(24) 8543 8088', 'On sale', 'About Us', 'Popular Places', 'info@example.com', 'Buy property', 'Services', and 'Rent property'. The 'Land' logo is visible on the right side of the footer bar, and a small upward arrow icon is in the bottom right corner.

Ovo je sekcija za kontaktiranje. Ako se uspešno unesu podaci onda će iskočiti alert koji će da obavesti korisnika da je uspešno poslao poruku. Ako to nije slučaj onda će se ispod kontakt forme biti prikazana pravila za unos u podataka u formu.

Regex pravila:

Name: Može da ima samo slova sa razmakom. Najviše tri reči.

Email: Samo format koji odgovara email-u.

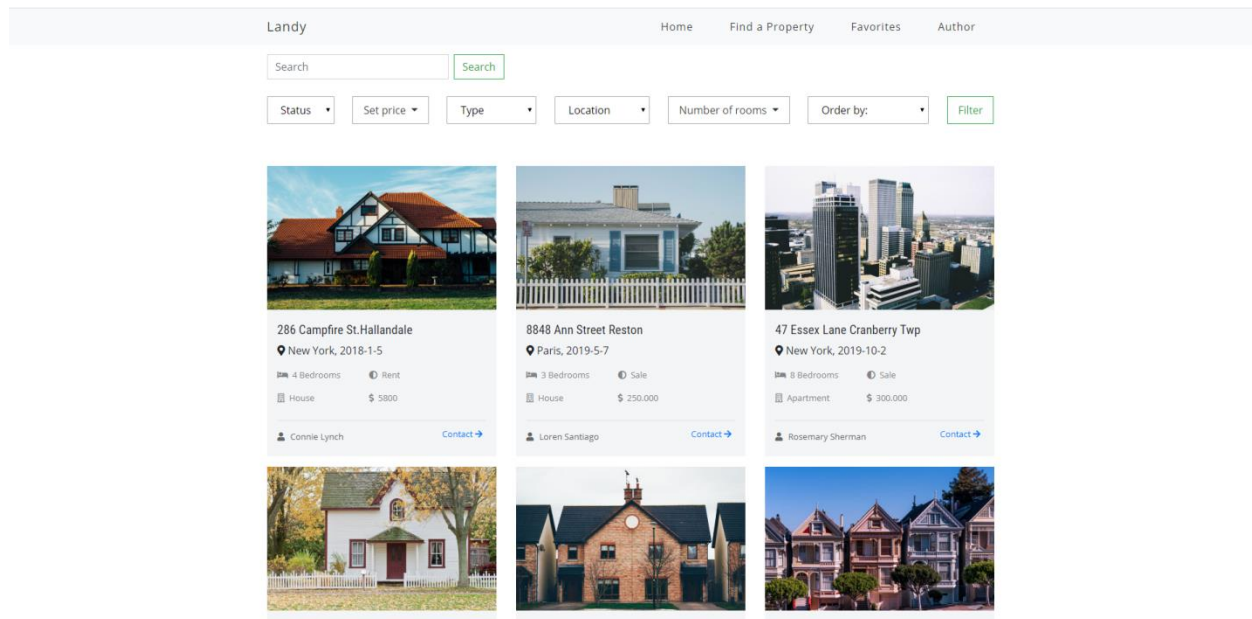

Subject: Dozvoljena su mala, velika slova, brojevi tačka, crta i donja crta. Dužina mora biti izmedju 5 i 50 karaktera.

Message: Ista pravila kao i za subject samo što mora izmedju 20 i 300 karaktera.

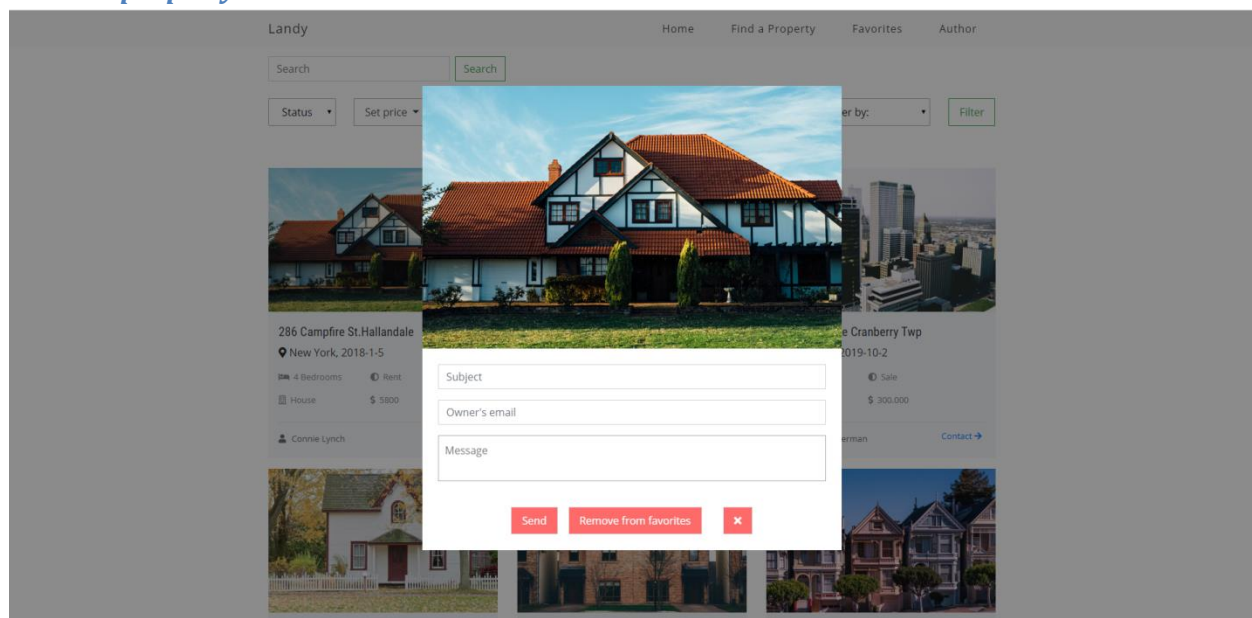

## Property.html

### Sve nekretnike

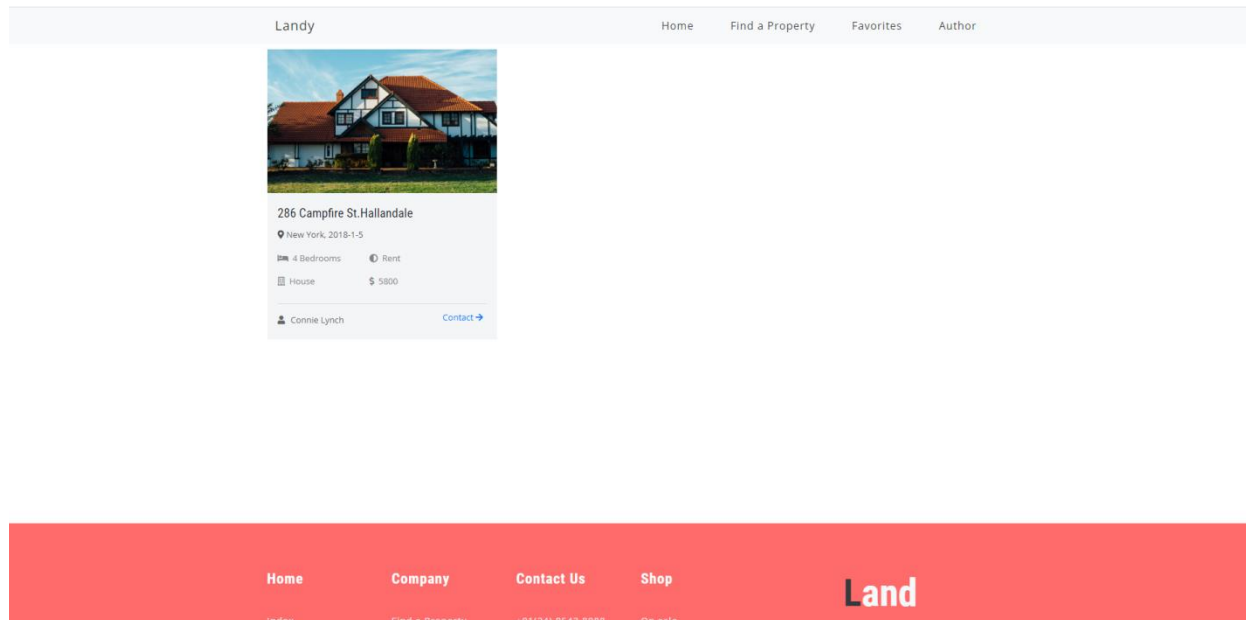

Ako je na stranici index.html nešto izabrano onda se ovde neće prikazati svi proizvodi već samo određeni. Na ovoj stranici postoji opcija da se filtriraju, sortiraju i pretraže svi proizvodi. Ako se klikne na plavi “contact” link iskočiće modal o kome će ispod piti detaljnije napisano.

### Modal u property.html

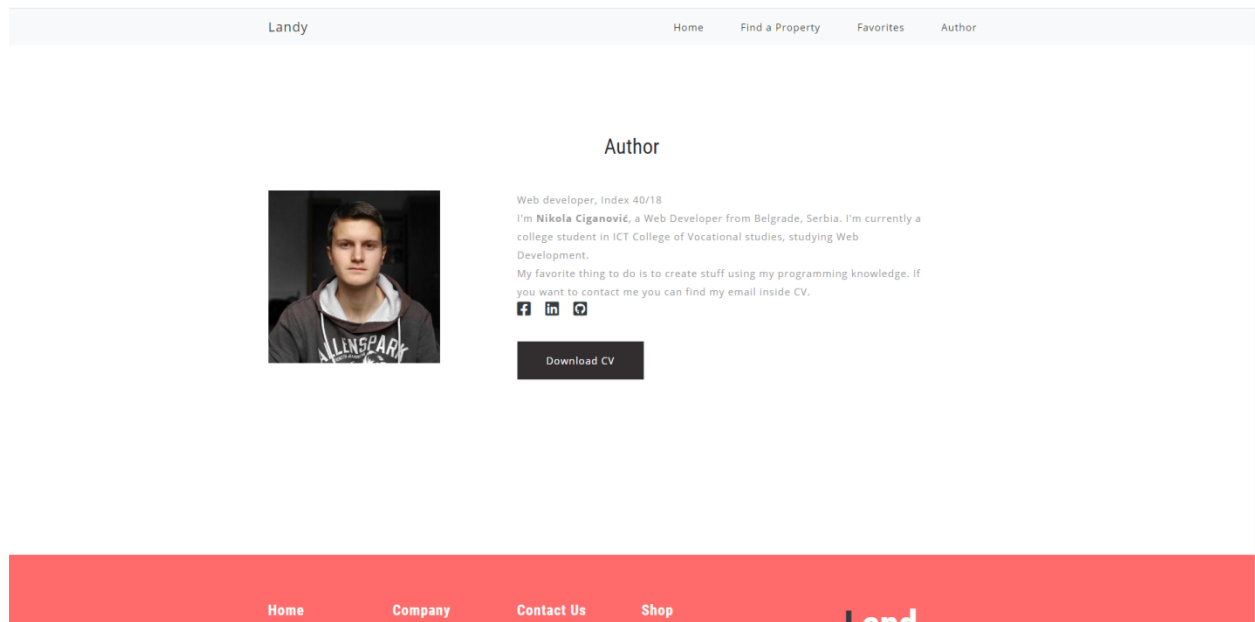

U ovom modalu moguće je kontaktirati korisnika klikom na “send”. Pravila za popunjavanje forme su ista kao i na prethodnoj strani. Takođe postoji i opcija da se doda u omiljenje klikom na “Add to favorites” dugme ili da se zatvori klikom na X.

## Favorites.html

Na ovoj strani moguće je videti sve nekretnine koje su dodate u omiljene. Klikom na contact link iskočiće isti modal kao i na prethodnoj slici gde može da se ukloni nekretnina iz omiljenih. Ako ne postoji ni jedna nekretnina na ovoj strani pisaće poruka koja to obaveštava korisnika.

Stranica o autoru. Sav kod je ispisan u HTML-u i CSS-u.

# Kodovi
